

# How do I set up my ColorReader device and connect to the Benjamin Moore Color Portfolio™ app?

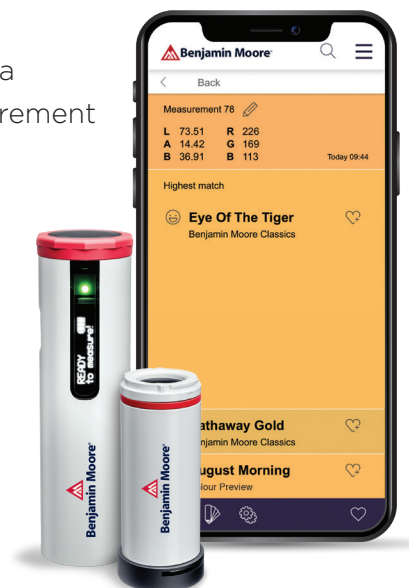

**Step 1** - Charge or plug in your device via the USB cable provided. While charging, download the free Benjamin Moore Color Portfolio app (iOS or Android).

**Step 2** - Turn the device on (green light indicates device is on). Tap the serial number button on the phone app to enable Bluetooth® connection to “wake up” ColorReader, linking device to the app.

**Step 3** - Screen will appear that says “ColorReader is Ready.” On the screen there may be an alert saying “Your ColorReader needs calibration.” Tap that to go to the Calibration menu. Follow the app instructions to colour calibrate your ColorReader.

**Step 4** - Place the device on the flat, solid surface of a colour you want to measure then press the Start measurement button on the app. Check the app for the colour match.

**Step 5 (for ColorReader Pro)** - Place the device on the flat, solid surface of a colour you want to measure then press the top button on the device or Start measurement button on the app screen. Check the app or the device screen for the colour match.
